Applied Sustainable Practice
GPM Global (USA)**

In today's world, the demand for sustainable and Halal food production is growing. This 3-hour online course is tailored to provide a comprehensive understanding of how to produce Halal food sustainably while optimizing supply chain management. Participants will gain insights into the ethical, environmental, and social aspects of food production, making them well-equipped to navigate the complex world of sustainable Halal food.

Topics Covered In This Course:

Introduction to Sustainable Halal Food Production and Supply Chain Management

- Understanding the significance of sustainability and Halal in food production.
- Recognizing the key challenges and opportunities in the field.

The Triple Bottom Line in Food Production

- Exploring the economic, environmental, and social dimensions of sustainable Halal food production.
- Balancing economic profitability with ethical and environmental responsibility.

Sustainable Food Production Practices

- Integrating sustainable farming, processing, and packaging into food production.
- Minimizing environmental impacts, conserving resources, and ensuring Halal compliance.

Halal Supply Chain Management

- Sustainable sourcing and supply chain management for Halal food.
- Ensuring the traceability and ethical procurement of Halal products and ingredients.

Quality Assurance and Halal Compliance

- Maintaining quality standards and Halal compliance in food production.
- Meeting regulatory requirements and ethical standards.

Stakeholder Engagement and Community Responsibility

- Engaging with stakeholders and local communities.
- Implementing social responsibility practices in Halal food production and supply chain management.

Learning Outcomes:

By the end of this course, participants will:

- Grasp the essential principles of sustainable Halal food production and supply chain management.
- Be able to integrate sustainable farming, processing, and packaging techniques into food production.
- Implement sustainable sourcing and supply chain strategies for Halal food.
- Recognize the importance of quality assurance and Halal compliance in the food production process.
- Understand the significance of stakeholder engagement and community responsibility in Halal food production and supply chain management.

Who Should Attend?

This course is suitable for:

- Food Production Managers and Supervisors
- Supply Chain and Procurement Specialists
- Quality Assurance and Halal Compliance Officers
- Halal Certification Professionals
- Entrepreneurs in Food Production
- Operations Managers in Food Production
- Anyone interested in promoting sustainability in Halal food production and supply chain management.

Instructor's Profile

Dr. Norsaudatul Akmar Mazelan boasts an impressive array of qualifications, including a PhD in Strategic Management from the University of Hull, UK, an MBA from the University of Evansville, USA, and a BSc in Mathematics from the University of Malaya. She holds certifications as a Certified Green Project Manager (GPM-B) and a Registered Consultant and Assessor (RCA) from GPM Global, where she is also recognized as a GPM Global Ambassador.

With over 30 years of experience, Dr. Norsaudatul Akmar Mazelan has held senior management positions in a diverse range of industries, including banking and financial services, oil and gas, information technology, engineering, and professional services. Her primary expertise lies in sustainability and ESG consulting. She has a strong track record of developing and implementing sustainability strategies, conducting ESG assessments, and advising companies on ESG reporting frameworks like GRI and SASB.

In her capacity as a GPM Global Ambassador, Dr. Norsaudatul Akmar Mazelan is a prominent representative of the organization, actively promoting sustainable development practices within the business community. She also provides training and mentoring to individuals and organizations looking to enhance their sustainability efforts. Her impressive track record includes successfully guiding numerous companies from various industries to improve their ESG performance and attain their sustainability objectives. She has played a pivotal role in devising and executing sustainability strategies for companies, resulting in notable improvements in environmental, social, and governance outcomes.

Dr. Norsaudatul Akmar Mazelan is particularly adept at communicating intricate sustainability concepts and strategies to diverse stakeholders, including senior executives, investors, and regulators. Her presentation and report writing skills are exceptional, making her highly effective in conveying complex ideas and information. Furthermore, she has demonstrated strong project management skills, effectively leading and managing cross-functional teams to ensure the successful implementation of sustainability initiatives.
